JOHNRITZ V. ALBELDA

Planning Officer I (MPDO) | Self-Taught Systems, Network & Web Administrator | Computer Engineer

Zamboanga del Norte, Philippines | johnritz.albelda@gmail.com | linkedin.com/in/johnritz-albelda-8b64b3118 | https://peepooh807.github.io

PROFESSIONAL SUMMARY

Planning Officer I at the Municipal Planning and Development Office (MPDO), Local Government Unit of Tampilisan. With no dedicated MIS office at the LGU, I have taken on the informal, self-initiated role of systems and network administrator alongside my formal planning duties. I design, build, and maintain production infrastructure end-to-end — enterprise virtualization (Proxmox VE), network security (OPNsense, 14-VLAN segmentation), and full-stack web and mobile applications (Python/Flask/Django, Kotlin/Android, Flutter, React/TypeScript, Firebase, WordPress) — entirely self-taught and self-directed. I also make deliberate use of AI-assisted development tools to accelerate coding, documentation, and scripting, without cutting corners on quality or security.

CORE TECHNICAL SKILLS

- **Backend & Frameworks:** Python, Flask, Django, WordPress (PHP/CMS)
- **Mobile Development:** Kotlin, Jetpack Compose (Android), Flutter (Dart)
- **Cloud & Frontend:** Firebase (Firestore, Cloud Functions, Auth, Hosting), React, TypeScript, Google Maps Platform
- **Infrastructure & Virtualization:** Proxmox VE, LXC Containers, nginx, systemd
- **Networking & Security:** OPNsense, VLAN Segmentation (14 subnets), Firewall Policy & Routing
- **Databases:** PostgreSQL, SQLite, Firestore (NoSQL)
- **AI-Assisted Workflows:** AI-assisted coding, prompt engineering, documentation automation
- **IT Operations:** Hardware diagnostics, network troubleshooting, technical training

PROFESSIONAL EXPERIENCE

Local Government Unit of Tampilisan — Municipal Planning and Development Office (MPDO)

Planning Officer I | February 2023 – Present

- Assist in developing municipal project plans; gather and coordinate information across offices for program and project development.
- Prepare and upload compliance data for national DILG systems (SUBAYBAYAN, RSSA, ADACS, ADAS, POPS) and other reporting requirements.
- Provide first-line troubleshooting for servers, computers, printers, and office peripherals across MPDO and other municipal offices.
- Designed and built Tampi Alert, a citizen emergency-reporting system (Flutter Android app, React/TypeScript dispatch dashboard, Firebase backend) for the Municipal Police Station and BFP under the POPS program; deployed and pilot-ready.

Self-Initiated Systems & Infrastructure Work *(informal — no dedicated MIS office at the LGU)*

- Architected and deployed a Proxmox VE virtualization host, running the self-hosted municipal systems in isolated LXC containers.
- Configured and maintain a central OPNsense firewall with 14 VLANs, segmenting sensitive civic departments and hardening the municipality's network security posture.
- Designed, built, and deployed TAWAS, a Flask/PostgreSQL water billing system now billing roughly 675 consumer accounts monthly, served via an nginx reverse proxy.
- Designed, built, and deployed the Tampilisan Attendance System (Flask/SQLAlchemy), a QR-based employee attendance tracker with a companion Android scanner app, currently tracking 129 employees.

- Designed and am currently building the MSWDO ID Management System (Django/PostgreSQL) for PWD and Senior Citizen ID issuance.
- Designed, built, and deployed the GSO Fixed Asset & Inventory Management System (Django/PostgreSQL) for the General Services Office, tracking 896 government assets worth roughly ₱172.8 million.
- Designed and launched the official municipal website (tampilisan.gov.ph) on WordPress using DICT's Government Web Template, and maintain it via the cPanel access DICT provides on their free government web hosting.
- Use AI-assisted development tools throughout to accelerate scripting, debugging, and documentation.

Local Government Unit of Tampilisan — Municipal Planning and Development Office (MPDO)
Admin Aide (Clerical) | October 2021 – January 2023

- Performed clerical and administrative support duties for the MPDO.

DepEd / LGU School Board — Galingon National High School, Tampilisan
Para-Teacher | October 2020 – October 2021

- Taught computer-related subjects to Grade 7–10 students as a part-time facilitator under the LGU School Board program.

Jose Rizal Memorial State University — Tampilisan Campus
Visiting Lecturer, Computer Studies | June 2017 – May 2019

- Delivered computer and electronics coursework for Grade 7–12 and tertiary-level students; evaluated student performance and maintained computer laboratory equipment.

Sharaf DG — Bahrain
IT Sales Executive / Cashier | April 2015 – April 2017

- Served as technical subject-matter expert for corporate and retail customers on electronics, laptops, and enterprise IT/networking products.
- Maintained client relationships, prepared quotations, and met monthly sales targets.

Philippine Health Insurance Corporation (PhilHealth) — Region VII, Philippines
P-AIMS (Account Information Management Specialist) / IT Support | January 2012 – January 2015

- Managed compliance, registration, and premium reporting for private and government employer accounts; conducted technical orientation seminars on PhilHealth systems and policies.
- Maintained network and computer connectivity for the regional branch, troubleshooting hardware/software issues and escalating major infrastructure problems to central MIS.

Philippine Health Insurance Corporation (PhilHealth) — Mandaue City, Cebu
Clerk III / Data Encoder / Customer Service | June 2008 – December 2011

- Provided front-line customer service; encoded high volumes of membership and remittance data into core databases.

EDUCATION & CREDENTIALS

- **Bachelor of Science in Computer Engineering —** Cebu Institute of Technology (2002–2008)
- **Professional Education Courses (18 units) — Philippine Advent College, Sindangan, Zamboanga del Norte (2018)**
- **Licensed Professional Teacher (LPT) —** Professional Regulation Commission (PRC), Philippines
- **Trainers Methodology Level I (TM I) —** Technical Education and Skills Development Authority (TESDA)
- **National Certificate II (NC II), Computer Systems Servicing —** Technical Education and Skills Development Authority (TESDA)
- **National Certificate II (NC II), Driving —** Technical Education and Skills Development Authority (TESDA)
